

World Book Day Celebration at ITBP Public School Library – 23 April

ITBP Public School celebrated World Book Day on 23 April in the school library with great enthusiasm. The event aimed to promote reading habits among students and highlight the importance of books in shaping young minds. Students participated in book discussions, storytelling sessions, and a “Globe Activity” where they explored books from different countries and located those countries on the globe. As part of the celebration, students also shared reviews of their favourite books, expressing what they learned and why the books inspired them. The event created a joyful and enriching atmosphere, reinforcing the message that reading is a lifelong companion.
