

Art and craft Display – A Glimpse of Young Creativity

The students brought their holiday homework to life with creativity and enthusiasm during the school exhibition held on 26 th July 2025, From beautifully crafted tribal and Lipan art to colorful models, their little hands showcased great skill and imagination.

A special corner was dedicated to the theme “Save Flora and Fauna”, where children shared their love for nature through drawings and models and cutouts of different species, spreading an important message of conservation.

The display was a delightful blend of art, culture, and awareness—reflecting the talents and thoughtful efforts of our young learners.
