## **Earth Day**

We do not inherit the earth from our ancestors, we borrow it from our children.

On 22nd April 2024 our little guardians of earth celebrated Earth Day with great enthusiasm and zeal. The celebration took place during the morning assembly conducted by the class 1.

Students performed action songs and orated solgans on Earth day which acquaint the others about how make our planet green and clean as every little bit in conserving the mother earth count. These 😓 performances aimed to raise awareness and inspire our action. It served as a reminder that every individual has a role to play in preserving our planet for future generations.

After special assembly students also participated in classroom activities where in they displayed different ways to conserve the earth aesthetically.

Happy Earth Day 🔇
