Dear Parents,

Summer is back here with a splash, bringing with it the best time for you. Best time i.e. HOLIDAYS and holidays are nothing but play and play. But what about the hot summer afternoons? They don't want to sleep but then what? We have assigned some assignments to help the children grow and learn through play while they remain indoors.

MORAL EDUCATION

Daily recite prayers in the morning and at bed time.

PHYSICAL DEVELOPMENT

Provide ample opportunities to your child and help him/her to learn in a playful manner.

1. Take the child with you for morning/evening walk and help him/her observe the plants and trees around.
2. Encourage him/her to run, jump and play on the swings in the park. Use this opportunity to teach not to push anybody, wait for the turn .
3. Encourage children to play games like throw and catch the ball, cricket and any other outdoor game of their choice in the evening.

SOCIAL SKILLS

We, at school, always aspire to put in our best efforts for the overall personality development of your children. This is done right from the beginning when these children are like clay in our hands. Like a potter works on his wheel to mould perfect objects, we try to mould them to make perfect individuals. But we can't achieve without your co-operation. Please try to spend quality time with them. We have some suggestions as to how you can keep your ward occupied during the summer break .

- Be a Friend: Play games with your child – like Ludo, Carromboard, and Scrabble.
- Develop motor skills: Let your child indulge in activities like mashing potatoes, rolling chappaties, clay moulding, shelling out peas etc. These activities will help in making their motor skills strong .
- Explore nature: Take your child for a morning walk. Count trees, cars, stones, flowers, etc. while going for a walk.

- Tell a Story: Come Mum! Let's have Fun, tell me a story and thanks a ton!! Narrate a short story to

little ones like Red Riding Hood , The hare and the tortoise, Snow White and 7 dwarfs, Pinocchio.....Ask the child to comprehend in his/her own words

- Sharpen Memory: Put a few things on a tray, show the tray to your child for a while then cover the tray and ask your child to name the objects which were on the tray. This activity will help in enhancing the memory of your child .
- Inculcate Responsibilities: Even these little ones can be taught to do small jobs and develop a sense of responsibility. They can do activities like Laying the table, Filling the water bottles, Dusting, Watering plants, Taking care of their pet, Cleaning their cupboard, Arranging their toys etc.

English

- Read Lesson -1 , 2(MCB) and do back exercise in book.
- Learn Poem 'The Swing'.
- Make picture dictionary of 10 new words from Lesson-1 and 2 (MCB).
- Do cursive writing practice twice in a week in rough notebook.
- Do worksheet of Lesson -1 and 2 (MCB) in fair note book.
- Read any Panchatantra story and write summary in 4-5 lines.
